

Junki Nakagawa

Senior Front End Developer

✉ junkinakagawatech@gmail.com ☎ +1 (717) 673 8940 📍 Mekuro-ku, 1520004 Tokyo

Profile

Senior front-end developer with 5+ years of experience with React and Vue.js. Strong in building web apps with React and specialized in dynamic languages such as JavaScript / Typescript, Python, Ruby, PHP, etc. Passionate about working with motivated teams and getting things done. Currently, prefers to work with React and Redux. Strictly adhere to the DRY principle and KISS approach. Seeking a position as a front-end lead developer at a startup company.

Education

Bachelor's Degree in Computer Engineering

Apr 2015 - Mar 2019

Tokyo University of Science, Tokyo

Employment

Senior React Engineer

Jun 2020 - Mar 2021

Listing Loop Pty Ltd

- Built pixel-perfect pages using React following the designs given by Adobe XD.
- Updated code layout for better maintenance, particularly for the Redux part.
- Worked on building a mobile app for iOS and Android using React Native from React code by using Ionic React and implemented push notifications and deep links.
- Implemented the WebSocket communication between the back end and front end through MessagePack, a binary serialization format.

React Developer

Aug 2019 - Mar 2020

Altitude Networks Inc

- Built an admin management web app for the property listing platform with React and TypeScript.
- Developed the responsive mobile screens of the buyer app for the real estate platform.
